What is this product?

Type

This is an investment fund established as an Irish Collective Asset-Management Vehicle (ICAV).

Objectives

Investment objective The Goodbody Vantage 50 ("the Fund") investment objective is to deliver real appreciation in the value of capital over the medium term (3 – 5 years).

Investment policies The Fund seeks to achieve its objective by investing primarily in a globally diversified portfolio of equity (including equity real estate investment trusts or REITs), fixed income, money market instruments, exchange traded funds (ETFs) (a marketable security that tracks an index, a commodity, bonds, or a basket of assets like an index fund) and other investment funds with exposure to equity, fixed income, money market instruments and/or which implement absolute return strategies.

Investment in equity securities and fixed income securities may be direct or indirect via financial derivative instruments, ETFs, investment funds and/or Global and American depositary receipts.

The Fund will aim to have approximately 50% invested in equities, but this may vary dependent on the investment manager's outlook on equity markets.

The Fund may invest up to 100% in any one of the above asset classes.

The investment manager may utilise futures and forwards for the purpose of portfolio currency hedging. A portion of the Fund's investments may, directly or indirectly, be exposed to or invested in securities that are denominated in currencies other than the base currency of the Fund.

The Fund may invest in money market instruments such as treasury bills, cash and deposits and fixed income securities.

The Fund may gain exposure to commodities (such as precious metals, industrial metals, energy and agricultural commodities) through investment in commodity-index linked derivative instruments and/or exchange traded notes.

The Fund may invest up to a maximum of 20% of its Net Asset Value in emerging markets.

The Fund may invest in fixed income securities including government and corporate bonds fixed and floating rate. At least 90% of such instruments will be rated investment grade or higher by at least one of the ratings agencies S&P, Moody's or Fitch. Investment in fixed income securities will be for the purpose of income generation and diversification.

Please refer to the Prospectus and Supplement for more detailed information.

Benchmark The Fund's performance is measured against a composite of 50% FTSE All World Index and 50% Bloomberg Barclays Euro Aggregate Bond Index (the "Benchmark"), which is the Fund's benchmark. The Fund is actively managed which means that the Investment Manager has discretion over the composition of the Fund's portfolio subject to its stated investment objective and policies. The investment manager may select securities not included in the Index. However, in normal market circumstances, whilst it is expected that a

significant portion of the Fund's constituents will also be Index constituents, deviations from the Index may be material. The Fund performance will be compared to the Benchmark in marketing materials.

Redemption and Dealing On demand, you can buy and sell Shares in the Fund on any Business Day.

Distribution Policy All income and gains generated by the Class C EUR Accumulation Shares will be reinvested. No dividends will be paid for the Accumulation Classes.

Launch date The Fund launched on 12/12/2018. The share class launched on 12/12/2018.

Fund Currency The share class is denominated in EUR.

Switching Investors may switch shares in the Fund for shares in other sub-funds of Goodbody Funds ICAV, provided that they satisfy the criteria applicable to investments in the other sub-fund(s). Further information on switching is contained in the prospectus.

Asset Segregation The Fund is a sub-fund of Goodbody Funds ICAV, an open-ended umbrella type Irish collective asset-managed vehicle with variable capital with segregated liability between its sub-funds and is established as an Undertaking for Collective Investment in Transferable Securities (UCITS).

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return.

Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIP manufacturer, Waystone Management Company (IE) Limited, is not entitled to terminate the product unilaterally.

Practical information

Depository The Fund's assets are held through its Depository, which is CACEIS Bank Ireland Branch and are segregated from the assets of other sub-funds of Goodbody Funds ICAV.

Further information Further information about the Fund (including the current prospectus and most recent financial statements) and the different Classes of Shares are available at the registered office of the ICAV. The net asset value per share for each share class of the Fund is available at www.goodbody.ie.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Fund to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.goodbody.ie.
